SCAD
SUMMER PROGRAMS
PICTURE YOURSELF AT SCAD

This summer, spark your imagination while refining your personal artistic vision with SCAD pre-college programs.

At SCAD Summer Seminars and SCAD Rising Star, you can experience all the perks of being a SCAD student—from inspired settings and professional-caliber resources to one-on-one guidance from acclaimed faculty.

Offering the most art and design degrees of any university in the U.S., SCAD prepares talented students to become tomorrow’s creative leaders through international locations, small classroom sizes and award-winning programs of study.

Start your journey with SCAD summer programs and open up a world of opportunity.

Experience SCAD summer fun in augmented reality. Download the SCAD app to your iPhone or tablet, tap the AR feature and scan the photo to discover SCAD summer programs.
Cultivate your creativity with an inspiring array of art and design workshops open to rising sophomores, juniors and seniors.

During SCAD Summer Seminars, participants choose two workshops from a host of disciplines that include animation, architecture, fashion, jewelry, photography and more. In these workshops, students create thought-provoking, tangible projects and works of art that are displayed for family and visitors.

Workshops are taught by SCAD professors, alumni or select graduate students. In order to provide maximum individual attention and collaborative interaction between students and instructors, class sizes are small, with generally 15 students or fewer. Demonstrations, lectures, studio work, and daily social and cultural activities provide an authentic experience of SCAD student life.

SCAD RISING STAR

A ATLANTA  H HONG KONG  S SAVANNAH

Rising high school seniors · Residential · Nonresidential

Ready for a firsthand SCAD student experience? This challenging five-week program awards college credit to rising high school seniors—and enhances their portfolios with university-level coursework. Participants enroll in two classes and receive individualized instruction from SCAD professors, with a maximum class size of 20 students.

All SCAD Rising Star participants have access to cutting-edge academic resources. From classrooms and computer labs to studios and production suites, students develop and complete their class assignments using state-of-the-art technology and materials. At the end of the program, a closing exhibition is held to showcase student work created in SCAD Rising Star classrooms.

Residential program participants live alongside fellow talented artists in SCAD residence halls and partake in engaging activities each week to get to know their peers, explore SCAD and discover alluring city attractions.

Students may also take advantage of SCAD libraries, galleries, theaters and bookstores.

For more information, visit scad.edu/rs.

*Spring 2015 graduates who were employed, pursuing further education or both within 10 months of graduation, according to a recent study.*
A GLOBAL UNIVERSITY, UNIQUELY UNITED

As one university with multiple locations, SCAD invites a seamless international education. The university’s innovative curriculum, consisting of 42 majors, as well as minors in more than 70 disciplines across locations in Savannah and Atlanta, Georgia; Hong Kong; Lacoste, France; and online through SCAD eLearning, is enhanced by advanced, professional-level technology, state-of-the-art equipment and unrivaled learning resources. With approximately 13,000 students from across the U.S. and more than 100 countries, SCAD fosters an extraordinary academic environment that leads to unparalleled career achievements.

SCAD faculty and career advisers are dedicated to helping students succeed in their creative endeavors. Through individual career counseling, job search assistance and internship placement, graduates go on to flourish in their chosen fields. In fact, 98 percent of Spring 2015 graduates were employed, pursuing further education or both within 10 months of graduation, according to a recent study.

No matter the location, students discover a world of opportunity through challenging degree programs, career-making contacts and transformative experiences. With SCAD, talent traverses the globe.
